Minutes of Meeting

Meeting	Meeting related to In House CMS development
Held on	15Th JULY 2014 Time : 11.30 AM to 1.00 PM , GMRT conference room
Attendees	NGK, SN, CPK, SNK,SSS & RRU
Agenda	In House CMS development
Highlights and items discussed	<ul style="list-style-type: none"> ◆ RRU updated that along with Naresh Sisodiya one MCM two sub-system (Sentinel & OF) has been successfully tested in Lab. # NGK asked to check round trip time & plot the data for command & response. ◆ SSS updated that he tried 1000 iteration but no change has been observed. # NGK asked to try GMFIT & front end for point source image of single channel data. ◆ SNK updated that he is logging MCM data in database. Changed ondisp to show multi subarray configuration. TAX program will take 1 or 2 days to complete. Temperature test done, it show no change. ◆ SN updated that he will require a server class machine for IP enabled camera monitoring & storage. ◆ CPK updated that he was busy with indent & purchase order of server class machine & L2, L3 N/W switches. * Discussed server class machine specification in detail. Work order for RFI shielded box for rabbit MCM & L2 N/W switches has gone & Mr. Kale is looking into that. CPK working with Pravin Raybole to identify RFI shielded connectors. Cisco L2 N/W switches indent is with YG for approval. CPK updated that Telemetry Lab will require SMD machine. Servo Lab has that machine. # NGK asked CPK to discuss with servo people so that SMD machine of Servo Lab can be utilized by Telemetry Lab. CPK will raise indent for 10 Miltec PC as asked by YG. # NGK asked CPK to check serial port communication of rabbit MCM card & FPS system. ◆ NGK suggested for a bigger discussion which can happen in second week of November 2014 after we are done with our Online_V2 testing.
