

Work Report (period 1.12.2013 to 31.12.2013) by RRU

1. GCC Duty
2. Explored Generic data structure library.
3. Poster prepared for MWSky conference on Online V2 "Upgraded New Control & Monitor System".
4. 8 antenna Online_v2 implemented. Tested it using Lab set up by configuring one MCM per antenna command sent from GUI as well as terminal.
5. Successfully tested user & sub array commands like create, showuser & cmd2sub by dividing 8 antenna among four user & subarray. Gave commands like sentinel init.
6. Implemented a prototype servo program (servo.c) which has all basic commands of servo system.
